Foreword .....	4
Introduction .....	5
Acknowledgements .....	6
Section 1: Seedling quality.....	7
Targeting seedlings and seedling quality .....	7
Quality seed .....	9
Seedling development .....	12
Handling seedling variability .....	17
Further reading .....	20
Section 2: Containers.....	22
Types of containers .....	23
Further reading .....	28
Section 3: Substrates .....	30
Physical and chemical properties .....	30
Soil and soil-less media .....	34
Suggested mixes .....	41
Further reading .....	43
Section 4: Fertilizers.....	45
Organic fertilizers .....	47
Inorganic fertilizers .....	49
Further reading .....	54
Section 5: Nursery and plant hygiene .....	55
Actions to prevent nursery contamination .....	57
Actions to cure infected plants .....	63
Further reading .....	64
Section 6: Nursery environment and facilities .....	65
Nursery layout .....	66
Enclosed structures .....	66
Water .....	69
Light .....	70
Temperature .....	72
Gas exchange .....	72
Electricity .....	73
Further reading .....	73
Section 7: Nursery management.....	74
Plans and schedules .....	74
Staff training .....	77
Further reading .....	78
General reading .....	79
Glossary .....	81
Annex 1: Nursery suppliers .....	85
Annex 2: Useful Internet addresses .....	89
Index .....	91
